Insure... inclined

Maintain... vulnerable

Squander... liable

Stimulate... resistant

Explanation

Choice (B) is correct. "Maintain" in this context means to keep up the level of, and "vulnerable" means open to attack. If one were to insert these terms into the text, the sentence would read "Communal nests have advantages and disadvantages for animals like voles and mice: they enable the animals to maintain body heat, but leave them more vulnerable to discovery by predators." The colon indicates that the missing terms will describe both an advantage and a disadvantage of communal nests. Such an environment would certainly help animals to "maintain body heat," but it is not surprising that a group of rodents is more likely to attract predators, making them "vulnerable" to attack.

lecture topic —, but unfortunately the lecturer's droning voice had a — effect.

- ☐ Interesting... rousing
- ☐ Advantageous... beneficial
- ☐ Rudimentary... reassuring
- ☒ Stimulating... soporific

Explanation

Choice (D) is correct. "Stimulating" means interesting. "Soporific" means causing sleep. If one were to insert these terms into the text, the sentence would read "The eager members of the audience found the lecture topic stimulating, but unfortunately the lecturer's droning voice had a soporific effect." The phrase "but unfortunately" signifies a contrast in the sentence between eager hopes for an interesting lecture and a disappointing presentation by the speaker. A stimulating topic and the sleep-inducing voice of the lecturer indicate such a contrast.

Recognition... versatility

Embarrassment... inadequacy

Prestige... diplomacy

Prominence... ineptitude

Explanation

Choice (D) is correct. "Prominence" means importance. "Ineptitude" means incompetence. If one were to insert these terms into the text, the sentence would read "Although Keller achieved national prominence as a hero, his lamentable ineptitude in the political arena soon became painfully apparent." The word "although" is a clue that one of the missing terms will be a positive quality while the other will be a negative one. In the first part of the sentence, "achieved" and "hero" place Keller in a positive light. "Lamentable" and "painfully" indicate that the second missing term will be a negative quality. A hero would be likely to achieve national prominence. "Ineptitude" is a negative quality that would be regrettable in political career.

complete the following sentences.

Louise Erdrich and Michael Dorris co-wrote *The Crown of Columbus*, a ——— effort successfully mingling their individual styles as writers.

- ☐ median
- ☐ Sisyphean
- ☒ collective
- ☐ urbane

Explanation

Choice (C) is correct. "Collective" refers to something done in partnership. If one were to insert this term into the text, the sentence would read "Louise Erdrich and Michael Dorris co-wrote *The Crown of Columbus*, a Collective effort successfully mingling their individual styles as writers." The missing term describes an effort that involves working together and mingling two people's individual writing styles. A "Collective effort" is one in which people work together to produce something.

Q : **Directions:** Choose the right option to complete the following sentences.
The author used a rhetorical question as a terminal flourish to —— the section of text.

- ☐ A divulge
- ☐ B rearrange
- ☐ C elucidate
- ☒ D conclude

Explanation

Choice (D) is correct. The key word in the sentence is "Terminal" means "concluding". "Conclude" means to end. If one were to insert this term into the text, the sentence would read "The author used a rhetorical question as a terminal flourish to conclude the section of text." The missing term explains how the author used a rhetorical question as a "terminal flourish," or final decoration, in the text. A "terminal flourish" would logically conclude a section of text.

Practice Test -2 (Sentence Completio...

Q. **Directions.** Choose the right option to complete the following sentences.

In many parts of the world, people use rice as a central rather than a — part of their daily diets.

A

pivotal

B

ritualistic

C

salient

D

supplementary

Explanation

Choice (D) is correct. "Supplementary" means something added or in addition to. If one were to insert this term into the text, the sentence would read "In many parts of the world, people use rice as a central rather than a supplementary part of their daily diets." The phrase "rather than" indicates that the blanked word will mean the opposite of the word "central." In this context, "supplementary" does indeed have the opposite meaning of "central."

Practice Test -2 (Sentence Completio...

performance proved the old saying that the hand is quicker than the eye.

A discernment

B tenacity

C hilarity

D adroitness

Explanation

Choice (D) is correct. "Adroitness" means physical skillfulness. If one were to insert this term into the text, the sentence would read "The magician's adroitness astonished us; her deft performance proved the old saying that the hand is quicker than the eye."

The semicolon in the middle of the sentence indicates that what follows it will elaborate on what came before it. Therefore, the meaning of the missing term should be closely related to a "deft," or skillful, performance that fooled the spectators. "Adroitness" precisely describes the ability to give such a skillful performance.

Practice Test -2 (Sentence Completio...

Q. **Directions.** Choose the right option to complete the following sentences.
The success of '*Notes of a Native Son*' ----- author James Baldwin as one of the most ----- essayists of his time.

A

buoyed . . irrelevant

B

established . . prominent

C

surrendered . . prolific

D

decried . . cynical

Explanation

Choice (B) is correct. "Establish" means to cause to be recognized and accepted. "Prominent" means widely and popularly known. If one were to insert these terms into the text, the sentence would read "The success of *Notes of a Native Son* established author James Baldwin as one of the most prominent essayists of his time." The success of *Notes of a Native Son* gave Baldwin recognition and acceptance within literary circles.

Practice Test -2 (Sentence Completio...

Castillo's poetry has generated only enthusiastic response: praise from the general public and ----- from the major critics.

A condemnation

B sarcasm

C plaudits

D irony

Explanation

Choice (C) is correct. "Plaudits" are praises. If one were to insert this term into the text, the sentence would read "Castillo's poetry has generated only enthusiastic response: praise from the general public and plaudits from the major critics." The use of the colon indicates that what follows in the sentence are examples of the "enthusiastic," or positive, response the poetry received. The missing term will therefore be an example of the enthusiastic response. "Plaudits" are praises, which is a type of enthusiastic response.
